

# PHP Developer – Marketplace System Development

 **Location:** Remote / Hybrid / Office (to be determined)

 **Company:** DBR77 – Revolutionizing industry through technology and automation  
We are building an innovative marketplace system and software that support design processes for the construction and modernization of production plants. Our team focuses on delivering real business value through modern and efficient solutions. We are currently seeking an experienced PHP Developer to join us and support the development of our digital products. If you have experience with a modern tech stack, value clean code, and want to have a real impact on the future of industry—welcome aboard!

 **Employment Type:** To be determined (employment contract / B2B)

 **What we expect from you:**

-  Minimum 3 years of PHP development experience
-  Proficiency in one of the popular PHP frameworks (e.g., Laravel, Symfony)
-  Knowledge of JavaScript
-  Experience with a frontend framework (e.g., React, Vue, Angular)
-  Basic experience with GIT version control
-  Familiarity with relational databases (e.g., MySQL, PostgreSQL)
-  Ability to write clean, readable, and maintainable code following best practices (e.g., SOLID principles)

 **Nice-to-have skills:**

-  Familiarity with TypeScript
-  Experience with Amazon Web Services (AWS)
-  Knowledge of software testing best practices

 **What we offer:**

-  Participation in the development of our own marketplace system and specialized industrial solutions
-  Flexible collaboration models with fully remote or hybrid options
-  Support from an experienced team and a positive work atmosphere
-  Real influence on product direction and technology choices

Ready to co-create modern solutions that transform the industrial world?

Apply today—send your CV to [hr@dbr77.com](mailto:hr@dbr77.com) by **May 20, 2025**. Please include the position title and your full name in the email subject.

 **Please include the following consent clause in your application:**

*“I consent to the processing of my personal data contained in the submitted application documents by DBR77 for the purpose of recruitment for the position specified in this job advertisement.”*
